Keurig Dr Pepper Reports Strong Q3 2021 Results and Raises Net Sales Guidance for the Year

Company Delivers High Single-Digit Net Sales Growth and Double-Digit EPS Growth in the Third Quarter 2021 Net Sales Guidance Raised to +7%-8% and Adjusted diluted EPS Guidance Reaffirmed at +13%-15%

BURLINGTON, Mass. and FRISCO, Texas, Oct. 28, 2021 /PRNewswire/ -- Keurig Dr Pepper Inc. (NASDAQ: KDP) today reported strong and balanced financial results for the third quarter ended September 30, 2021 and raised its guidance for net sales growth, which is now expected in the range of 7% to 8% for 2021. The Company also reaffirmed its guidance for Adjusted diluted EPS growth in the range of 13% to 15% for the year.

		ed GAAP asis	Adjust	ed Basis ¹
	Q3	YTD 2021	Q3	YTD 2021
Net Sales	\$3.25 bn	\$9.29 bn	\$3.25	\$9.29 bn
% vs Prior Year	7.6%	9.4%	bn	9.4%

% vs Prior Year	19.4%	44.4%	12.8%	13.9%
% vs YTD 2019		51.7%		32.2%

Commenting on the announcement, Chairman and CEO Bob Gamgort stated, "In the quarter, we continued to effectively manage through macro challenges to deliver strong and balanced results. We are now entering the final quarter of our three-year, post-merger period with excellent top-line momentum and are on track to deliver or exceed our original merger commitments. Our outlook for the business remains strong, as we look forward to our next chapter of transformation and growth."

Third Ouarter Consolidated Results

Net sales for the third quarter of 2021 increased 7.6% to \$3.25 billion, compared to \$3.02 billion in the year-ago period, driven by growth in each business segment, with Beverage Concentrates and Latin America Beverages posting double-digit growth. On a constant currency basis, net sales advanced 6.8% in the quarter, reflecting higher volume/mix of 3.2% and favorable net price realization of 3.6%. On a two-year basis, year-to-date constant currency net sales advanced 13.3% versus the first nine months of 2019.

KDP in-market performance in the Liquid Refreshment Beverages (LRB) category remained strong in the quarter, with retail dollar consumption ² advancing 6.8% across the Company's cold beverage retail base, reflecting strength in CSDs³, premium unflavored water, enhanced flavored water, coconut water, apple juice and apple sauce. This performance was driven by Dr Pepper, Sunkist, Canada Dry, A&W and Squirt CSDs, Evian, Bai, Vita Coco, Polar and Mott's apple juice and apple sauce. On a two-year stacked basis, KDP gained market share in nearly 75% of its cold beverage retail base and grew consumption of its cold beverage portfolio by 23%.

In coffee, retail consumption of single-serve pods manufactured by KDP in IRi tracked channels increased 4.3% and dollar market share remained strong, advancing to 83% in the quarter. Performance in the away-from-home business improved versus the year-ago shelter-in-place environment, although the increase in overall consumer mobility has not yet fully translated into a broad return to offices. On a two-year stacked basis, retail consumption of single-serve pods manufactured by KDP increased 16% in IRi tracked channels.

GAAP operating income increased 5.6% to \$795 million in the third quarter of 2021, compared to \$753 million in the year-ago period, reflecting the growth in net sales and the benefits of productivity and merger synergies. Partially offsetting these positive drivers were inflation in input costs, logistics and manufacturing, higher operating expenses associated with strong consumer demand, a significant increase in marketing investment and the unfavorable year-over-year impact of items affecting comparability.

Adjusted operating income grew 6.5% to \$931 million in the third quarter of 2021, compared to \$874 million in the year-ago period, driven by a 50 basis point increase in adjusted gross margin in the quarter. Adjusted operating margin was 28.6% of net sales in the third quarter of 2021, compared to 28.9% in the year-ago period, reflecting the impact of the significantly higher marketing investment in the third quarter of 2021 versus year-ago. On a two-year basis, year-to-date Adjusted operating income advanced 20.9% versus the first nine months of 2019. On a constant currency basis, Adjusted operating income increased 5.7% in the third quarter.

GAAP net income grew 20% to \$530 million in the third quarter of 2021, or \$0.37 per diluted share, compared to \$443 million, or \$0.31 per diluted share, in the year-ago period. This performance was driven by the growth in operating income and a double-digit decline in interest expense, primarily reflecting the benefits of the strategic refinancing completed in the first quarter of 2021 and lower outstanding indebtedness. Also benefitting the comparison was the favorable year-over-year impact of items affecting comparability.

Adjusted net income advanced 13.3% to \$631 million in the third quarter of 2021, compared to \$557 million in the year-ago period, largely reflecting the Adjusted operating income growth and the significant decline in interest expense. Adjusted diluted EPS advanced 12.8% to \$0.44 in the third quarter of 2021, compared to \$0.39 in the year-ago period. On a two-year basis, year-to-date Adjusted diluted EPS arew 32.2% yersus the first nine months 2019.

Free cash flow totaled \$676 million in the third quarter of 2021, primarily reflecting the growth in earnings and ongoing effective working capital management. This continued strong free cash flow performance enabled KDP to reduce total financial obligations by \$327 million in the third quarter of 2021 and end the period with \$200 million of unrestricted cash on hand. In addition, the Company's management leverage ratio continued to decline, ending the third quarter of 2021 at 3.2x, compared to 3.8x in the year-ago period. Since the close of the merger in July 2018, the Company's management leverage ratio has declined by 2.8x.

- 1 Adjusted financial metrics used in this release are non-GAAP. See reconciliations of GAAP results to Adjusted results in the accompanying tables.
- Retail consumption data based on Keurig Dr Pepper's custom IRi category definitions for the 13-week period ending 9/26/2021.
- CSDs refer to "Carbonated Soft Drinks".

Third Quarter Segment Results

Coffee Systems

Net sales for the third quarter of 2021 advanced 5.3% to \$1.16 billion, compared to \$1.10 billion in the year-ago period. On a constant currency basis, net sales advanced 4.6%, reflecting higher volume/mix of 5.7% and lower net price realization of 1.1%.

The volume/mix increase of 5.7% in the quarter reflected pod volume growth of 6.3% and brewer volume growth of 2.2%, despite lapping growth of 34% in the year-ago quarter. The pod volume performance reflected continued strong growth in the at-home business and improving trends in the away-from-home business, although the return to offices continues to be slow and the away-from-home business remains well below pre-pandemic levels. The brewer volume growth largely reflected continued strong retail consumption, primarily driven by the Company's successful brewer innovation program, despite the comparison to the very strong brewer shipments in the year-ago period.

GAAP operating income increased 4.4% to \$334 million in the third quarter of 2021, compared to \$320 million in the year-ago period, reflecting the strong net sales growth, continued productivity and merger synergies and the favorable year-over-year impact of items affecting comparability. Partially offsetting these positive drivers were inflation in input costs, logistics and manufacturing and higher marketing investment in the quarter.

Adjusted operating income increased 1.1% to \$377 million in the third quarter of 2021, compared to \$373 million in the year-ago period and, on a constant currency basis, Adjusted operating income advanced 0.5%. On a percent of net sales basis, Adjusted operating income in the third quarter of 2021 was 32.6%, compared to 34.0% in the year-ago period, largely due to the impacts of inflation and increased marketing investment.

Packaged Beverages

Net sales for the third quarter of 2021 increased 6.9% to \$1.55 billion, compared to \$1.45 billion in the year-ago period. On a constant currency basis, net sales increased 6.8%, reflecting favorable volume/mix of 1.5% and higher net price realization of 5.3%. Leading the strong net sales performance were CSDs, particularly Dr Pepper, Canada Dry, Sunkist, A&W, 7UP, and Squirt, as well as growth in Polar and Mott's, partially offset by a decline in Snapple related to recent supply chain challenges and softness in Hawaiian Punch.

GAAP operating income increased 10.8% to \$288 million in the third quarter of 2021, compared to \$260 million in the year-ago period, largely reflecting the benefits of the strong net sales growth, continued productivity and merger synergies and the favorable year-over-year impact of items affecting comparability. Partially offsetting these growth drivers were inflation in input costs, logistics and manufacturing, increased operating expenses to meet continued strong consumer demand, higher marketing investment and an increase in other operating

Adjusted operating income advanced 2.6% to \$312 million in the third quarter of 2021, compared to \$304 million in the year-ago period and, on a constant currency basis, Adjusted operating income increased 2.3%. On a percent of net sales basis, Adjusted operating income in the third quarter of 2021 was 20.2%, compared to 21.0% in the year-ago period.

Beverage Concentrates

Net sales for the third quarter of 2021 increased 11.4% to \$392 million, compared to \$352 million in the year-ago period. On a constant currency basis, net sales advanced 10.8%, reflecting favorable net price realization of 11.4% and lower volume/mix of 0.6%. The volume/mix performance reflected lower concentrate shipments in the quarter, largely offset by improving

trends versus year-ago in the fountain foodservice business, driven by increased consumer mobility in the restaurant and hospitality channels

Total shipment volume versus year-ago decreased 0.6% in the quarter, as a decline in Canada Dry was partially offset by higher shipment volume of Dr Pepper. Bottler case sales volume increased 1.6% in the quarter compared to the year-ago period.

GAAP operating income increased 9.2% to \$286 million in the third quarter of 2021, compared to \$262 million in the year-ago period, reflecting the benefit of the higher net sales, partially offset by significantly higher marketing investment in the guarter.

Adjusted operating income increased 9.1% to \$289 million in the third quarter of 2021, compared to \$265 million in the year-ago period and, on a constant currency basis, Adjusted operating income advanced 8.7%. On a percent of net sales basis, Adjusted operating income was 73.7% in the third quarter of 2021, compared to 75.3% in the year-ago period, due to the significant increase in marketing.

Net sales for the third quarter of 2021 increased 25.8% to \$156 million, compared to \$124 million in the year-ago period and, on a constant currency basis, net sales increased 14.5%. This performance was driven by strong volume/mix growth of 10.5%, reflecting the benefits of significantly higher marketing investment and favorable net price realization of 4.0%. Leading the strong net sales performance in the quarter were Peñafiel and Clamato.

GAAP operating income increased 48% to \$37 million in the third guarter of 2021, compared to \$25 million in the year-ago period, reflecting the strong growth in constant currency net sales, continued productivity and favorable foreign currency translation and transaction impacts. This performance was partially offset by inflation in input costs and logistics, significantly higher marketing investment and increased operating expenses associated with strong consumer demand.

Adjusted operating income increased 48% to \$37 million in the third quarter of 2021, compared to \$25 million in the year-ago period and, on a constant currency basis, Adjusted operating income increased 36%. On a percent of net sales basis, Adjusted operating income advanced 350 basis points to 23.7% in the third quarter of 2021, compared to 20.2% in the year-ago period, primarily reflecting the strong growth in net sales and productivity.

Outlook for 2021

The Company raised its guidance for constant currency net sales growth to the range of 7% to 8%, from the previous range of 6% to 7%, and reaffirmed its outlook for Adjusted diluted EPS growth in the range of 13% to 15%. KDP continues to expect its management leverage ratio to be at or below 3.0x at year-end.

Certain statements contained herein are "forward-looking statements" within the meaning of applicable securities laws and regulations. These forward-looking statements can generally be identified by the use of words such as "outlook," "guidance," "anticipate," "expect," "believe," "could," "estimate," "feel," "forecast," "intend," "may," "plan," "potential," "project," "should," "target," "will," "would," and similar words. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. These statements are based on the current expectations of our management, are not predictions of actual performance, and actual results may differ materially.

Forward-looking statements are subject to a number of risks and uncertainties, including the impact of the global COVID-19 pandemic and the factors disclosed in our Annual Report on Form 10-K and subsequent filings with the SEC. We are under no obligation to update, modify or withdraw any forward-looking statements, except as required by applicable law.

NON-GAAP FINANCIAL MEASURES
This release includes certain non-GAAP financial measures including Adjusted operating income, Adjusted net income, Adjusted diluted EPS and free cash flow, which differ from results using U.S. Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures should be considered as supplements to the GAAP reported measures, should not be considered replacements for, or superior to, the GAAP measures and may not be comparable to similarly named measures used by other companies. Non-GAAP financial measures typically exclude certain charges, including one-time costs that are not expected to occur routinely in future periods. The Company uses non-GAAP financial measures internally to focus management on performance excluding these special charges to gauge our business operating performance. Management believes this information is helpful to investors because it increases transparency and assists investors in understanding the underlying performance of the Company and in the analysis of ongoing operating trends. Additionally, management believes that non-GAAP financial measures are frequently used by analysts and investors in their evaluation of companies, and their continued inclusion provides consistency in financial reporting and enables analysts and investors to perform meaningful comparisons of past, present and future operating results. The most directly comparable GAAP financial measures and reconciliations to non-GAAP financial measures are set forth in the appendix to this release and included in the Company's filings with the SEC.

To the extent that the Company provides guidance, it does so only on a non-GAAP basis and does not provide reconciliations of such forward-looking non-GAAP measures to GAAP due to the inability to predict the amount and timing of impacts outside of the Company's control on certain items, such as non-cash gains or losses resulting from mark-to-market adjustments of derivative instruments, among others.

KEURIG DR PEPPER INC. RECONCILIATION OF CERTAIN NON-GAAP INFORMATION (UNAUDITED)

The company reports its financial results in accordance with U.S. GAAP. However, management believes that certain non-GAAP financial measures that reflect the way management evaluates the business may provide investors with additional information regarding the company's results, trends and ongoing performance on a comparable basis.

For the third quarter of 2021 and 2020, we define our Adjusted non-GAAP financial measures as certain financial statement captions and metrics adjusted for certain items affecting comparability. The items affecting comparability are defined below.

Specifically, investors should consider the following with respect to our financial results:

Adjusted: Defined as certain financial statement captions and metrics adjusted for certain items affecting comparability.

Items affecting comparability: Defined as certain items that are excluded for comparison to prior year periods, adjusted for the tax impact as applicable. Tax impact is determined based upon an approximate rate for each item. For each period, management adjusts for (i) the unrealized mark-to-market impact of derivative instruments not designated as hedges in accordance with U.S. GAAP and do not have an offsetting risk reflected within the financial results; (ii) the amortization associated with definite-lived intangible assets; (iii) the amortization of the deferred financing costs associated with the DPS Merger; (iv) the amortization of the fair value adjustment of the senior unsecured notes obtained as a result of the DPS Merger; (v) stock compensation expense and the associated windfall tax benefit attributable to the matching awards made to employees who made an initial investment in KDP; (vi) non-cash changes in deferred tax liabilities related to goodwill and other intangible assets as a result of tax rate or apportionment changes; and (vii) other certain items that are excluded for comparison purposes to prior year periods.

For the third quarter and first nine months of 2021, the other certain items excluded for comparison purposes include (i) restructuring and integration expenses related to significant business combinations; (ii) productivity expenses; (iii) costs related to significant non-routine legal matters; (iv) the loss on early extinguishment of debt related to the redemption of debt; (v) incremental costs to our operations related to risks associated with the COVID-19 pandemic; and (vi) gains from insurance recoveries related to the February 2019 organized malware attack on our business operation networks in the Coffee Systems segment.

For the third quarter and first nine months of 2020, the other certain items excluded for comparison purposes include (i) restructuring and integration expenses related to significant business combinations; (ii) productivity expenses; (iii) transaction costs for significant business combinations (completed or abandoned) excluding the DPS Merger; (iv) costs related to significant non-routine legal matters; (v) the loss on early extinguishment of debt related to the redemption of debt, (vi) incremental costs to our operations related to risks associated with the COVID-19 pandemic and (vii) impairment recognized on our equity method investments with Bedford and LifeFuels.

Incremental costs to our operations related to risks associated with the COVID-19 pandemic include incremental expenses incurred to either maintain the health and safety of our front-line employees or temporarily increase compensation to such employees to ensure essential operations continue during the pandemic. We believe removing these costs reflects how management views our business results on a consistent basis.

For the third quarter and first nine months of 2021 and 2020, the supplemental financial data set forth below includes reconciliations of Adjusted income from operations, Adjusted net income and Adjusted diluted EPS to the applicable financial measure presented in the unaudited condensed consolidated financial statement for the same period.

Reconciliations for these items are provided in the tables below.

Adjusted diluted earnings per share, as adjusted to currency neutral	\$	0.44	\$	1.14

The following table sets forth our reconciliation of significant COVID-19-related expenses. However, employee compensation expense and employee protection costs, which impact our SG&A expenses and cost of sales, are included as the COVID-19 item affecting comparability and are excluded in our Adjusted financial measures. In addition, reported amounts under U.S. GAAP also include additional costs, not included as the COVID-19 item affecting comparability, as presented in tables below.

- Employee compensation expense and employee protection costs are both included as the COVID-19 items affecting comparability in the reconciliation of our Adjusted Non-GAAP financial measures.
- In 2021, reflected pay for temporary employees, including the associated taxes, as well as incremental benefits provided to frontline workers such as extended sick leave, in order to maintain essential operations during the COVID-19 pandemic. In 2020, primarily reflected temporary incremental frontline incentive pay and benefits, as well as pay for temporary employees, including the associated taxes. Impacts both cost of sales and SG&A expenses.
- Included costs associated with personal protective equipment, temperature scans, cleaning and other sanitization services. Impacts both cost of sales and SG&A expenses
- In 2020, allowances reflected the expected impact of the economic uncertainty caused by COVID-19, leveraging estimates of credit worthiness, default and recovery rates for certain of our customers. In 2021, reversals of those allowances reflect improving economic conditions. Impacts SG&A expenses. (4)
- (5) Impacts cost of sales.

RECONCILIATION OF CERTAIN ADJUSTED FINANCIAL RESULTS FOR THE FIRST NINE MONTHS OF 2019 (Unaudited, in millions, except per share data)

For the purposes of additional analysis, we have also included certain non-GAAP financial measures for the first nine months of 2019.

For the first nine months of 2019, we define our Adjusted non-GAAP financial measures as certain financial statement captions and metrics adjusted for certain items affecting comparability. The items affecting comparability are defined below.

Adjusted: Defined as certain financial statement captions and metrics adjusted for certain items affecting comparability.

Items affecting comparability: Defined as certain items that are excluded for comparison to prior year periods, adjusted for the tax impact as applicable. Tax impact is determined based upon an approximate rate for each item. For each period, management adjusts for (i) the unrealized mark-to-market impact of derivative instruments not designated as hedges in accordance with U.S. GAAP and do not have an offsetting risk reflected within the financial results; (ii) the amortization associated with definite-lived intangible assets; (iii) the amortization of the deferred financing costs associated with the DPS Merger; (iv) the amortization of the fair value adjustment of the senior unsecured notes obtained as a result of the DPS Merger; (v) stock compensation expense and the associated windfall tax benefit attributable to the matching awards made to employees who made an initial investment in KDP; (vi) non-cash changes in deferred tax liabilities related to goodwill and other intangible assets as a result of tax rate or apportionment changes; and (vii) other certain items that are excluded for comparison purposes to prior year periods.

For the first nine months of 2019, the other certain items excluded for comparison purposes include (i) restructuring and integration expenses related to significant business combinations; (ii) productivity expenses; (iii) transaction costs not associated with the DPS Merger; (iv) costs related to significant non-routine legal matters; (v) the impact of the step-up of acquired inventory not associated with the DPS Merger (vi) the loss on early extinguishment of debt related to the redemption of debt; and (vii) the loss related to the February 2019 organized malware attack on our business operation networks in the Coffee Systems segment.
